SYSTEM CONNEX

CONNEX system - is a patented, innovative, connector-free method of butt-joining single boards FS-201 and FS-301, double boards FS-202 and FS-302 and fourfold board FS-304.

- ladding boards come in 2,95 m lengths,
- they have special built-in locks at each end, facilitating much quicker and easier installation,
- no additional connector elements are necessary,
- consequently, the butt-joints made with the CONNEX system are almost invisible on the wall surface.

CONNEX SYSTEM

FS-201

FS-301

CONNEX system is available for single boards FS-201, FS-301, double boards FS-202, FS-302 and fourfold boards FS-304.

In case of FS-301 the connection is visible on the wall surface, therefore, to obtain desired visual effect, boards connections need to be planned before installation
